

Beginners Digital Photography

With Geoff Read (winner of the judges vote 2016)

£50 per person

This workshop is designed to get you off of your auto camera setting. I will strip the session right back to basics and go through all your settings and explain how to get the best from your camera.

Morning

The session will be classroom based going through your camera menus and settings and then using them for practical work indoors touching on close up and portrait work.

Afternoon

After lunch this session we will be outdoors using your newly acquired skills to obtain great images in our very attractive Rookesbury setting; this will be at your pace and whatever you wish to concentrate on.

Late Afternoon

We will end the day looking through your images on screen and seeing what you have achieved and running through any questions you may have.

You will need with your camera:

- Fully charged batteries and charger
- Empty CF/SD cards
- Any lenses you may have
- Tripod/monopod (optional)
- Flashgun(optional)

I will provide all props and bring my own equipment for you to try if you wish too.

It would be helpful for me to know what camera you will be bringing before the workshop.
